Upper Sava Valley

To the north **Karavanke Range**, to the south the **Julian Alps**, to the east the town of **Jesenice**, to the west the watersheds of the rivers **Sava** and **Gail**.

Fresh summers, **cold** winters. Vast forests of **coniferous trees** and **larches**, and **dwarf pines** above the tree line. Chamois, deer and rabbits among the **wild animals** that can be found here, and grouse and birds of prey among the **mountain birds**.

The Upper Sava Valley is full of **cultural treasures**, as well as modern **adrenaline sports**. Quiet and secluded on the one hand, and home to vibrant social events on the other.

The Upper Sava Valley has always been, and always will be, a jewel worth **taking time over**, to see it from all sides, in all seasons and with all its adventures.

For a start, get a **map** of the Upper Sava Valley at the **Kranjska Gora Tourist Information Centre**.

Rateče - Planica

The heroes of Planica fly like birds...

... is certainly the most well-known tune in Rateče.

The icon of Slovene folk music, **Slavko Avsenik**, dedicated the song "Planica" to ski jumpers on one of the **largest ski jumps** in the world, the **Planica ski jump**.

Rateče is known for its long and cold winters, but also for days full of sunlight, walking through the mountain meadows at the foothills of the **Karavanke mountains**.

See the copies of the famous **Rateče manuscripts** in the **Church of St. Thomas** in Rateče, one of the **four oldest records of the Slovene language**.

Podkoren

Although **Podkoren** and **Kranjska Gora** both experience an increase in tourism due to the annual **Alpine Ski World Cup**, the lovely settlement of Podkoren, with its cluster of houses above the left bank of the fledgling **Sava River**, is still very **independent**.

Podkoren was a “toll” town; a cobblestone medieval road ran through it, and post carriages paid to drive through. Until the **Karavanke tunnel** was built, the **Korenško sedlo** mountain pass was the main road link to central and northern Europe.

If you **love mystery and the rural idyll**, Podkoren is your sanctuary. “My old nest...” wrote the well-known English scientist and admirer of the Gorenjska region, **Sir Humphry Davy** about Podkoren and its surroundings. **Podkoren** also has an unusual and funny side, as it hosts an annual meeting of the mythical monsters called Fire Spectacle - **Meeting of Krampuses (“Parkeljni”) of Three Lands** which is one of the most famous Upper Sava festivities.

Kranjska Gora

The story of **Kranjska Gora** reaches into the **second half of the 14th century** when Kranjska Gora evolved from a pastoral settlement into today's cosmopolitan Alpine resort.

It was strategically important during the World War I, when Russian prisoners of war built a **military road over the 1,611 m Vršič Pass**.

The first ski lifts were built on the slopes of **Vitranc**, and then came the **summer toboggan run, beautiful hotels, lovely apartments, fascinating museums, cultural events, and crazy parties...**

There is always something going on in Kranjska Gora. The adventurous discovery of the **Upper Sava Valley** starts here and never stops!

Gozd Martuljek and Srednji Vrh

The settlement of **Gozd Martuljek** gets its name from a stream, and the house names of the village of **Srednji Vrh** date from the period of the Turkish invasions. After World War I, this was a vibrant area with flour mills, ironworks and charcoal burners, which are now being revived as a part of the local tradition.

The modern settlement of **Gozd Martuljek** is a wonderful mixture of unspoilt Alpine nature with **waterfalls**, a **rich cultural heritage**, and the **stunning Martuljek mountain cirque** with its **central rocky pyramid, Špik**, giving the steep faces a special charm.

The best view of the Martuljek cirque is from the village of Srednji Vrh, on the opposite side of the valley on the **Karavanke mountains**.

Mojstrana

The village under Triglav, Slovenia's highest peak

Mojstrana, once a mining and ironwork settlement, is today most famous for its **excellent alpinists and skiers**. Many **Slovenian Olympians** were born in Mojstrana or its immediate surroundings.

Since Mojstrana is situated at the 'gateway' to the **Triglav National Park**, there are three wonderful **Alpine valleys** leading from here into the heart of the **Julian Alps**. The **Krma Valley** offers the easiest access to **Triglav**, the **Kot Valley** captivates us with its tranquillity, and the **Vrata Valley** surprises us with the mighty north face of Triglav.

Visiting the **Slovenian Alpine Museum** and this picturesque Alpine village is a must!

Dovje and Belca

Dovje is a village with a thousand-year history, a rural tradition, and very well-preserved typical Alpine architecture. Notice the arched stone doors. Admire the **terraced flower meadows** below the village.

Breathe in the village of Dovje's **healing atmosphere**, where the memory of the **priest** and **Slovene hero Jakob Aljaž** is still alive. If you are planning a trip to the **Karavanke Mountains**, the village of Dovje is your ideal base camp.

At **Belca**, not far from **Mojstrana**, you can still see cattle grazing freely on the mountain pastures in the hamlet of **Podkuže**. Don't miss the very scenic walk along the forest path by the **Belca Stream** with its **disappearing waterfalls!**

Zgornja Radovna

Zgornja Radovna lies within the **Triglav National Park** along the Radovna River, where the waters of the Alpine glacial **valleys of Krma and Kot flow**. Homesteads are scattered throughout the valley, so the walk through Radovna is a unique experience in itself.

Visit the **Gogala Homestead**, home to a four-hundred-year-old linden tree. Walk to the **Pocar Homestead**, which has been turned into a cultural museum, with frescoes and an authentic interior. Near the Psnak Homestead, see the well-preserved **Psnak beehive**, with a **sawmill** and water mill a little lower down the river.

Radovna is also a peaceful, scenic base for different hikes to the **Julian Alps**.

Planica Nordic Centre

The **Planica Nordic Centre** is an exceptional environment for continuing the **Slovenian tradition ski jumping and flying**, as well as for **cross-country skiing training and competitions**.

Within the framework of the **Planica Nordic Centre**, seven new ski jumping hills and accompanying facilities have been built. The ski-flying hill, built by the Gorišek brothers, has also been renovated.

The main building, **the centre for cross-country skiing and ski jumping**, comprises a viewing platform, the **Planica Museum** on two floors, a wind tunnel and catering facilities.

In addition to many outdoor cross-country skiing tracks in the winter, it is also possible to use the covered internal cross-country skiing polygon in the warmer months.

The youngest visitors can have fun in the **children's adrenaline park**, as well as in the **children's corner in the central cross-country skiing facility**. Take a guided tour of the central facility and its surroundings!

The Triglav National Park

The Triglav National Park encompasses the stunning, almost pristine nature and cultural heritage of the eastern Julian Alps, which Slovenian environmentalists are striving to preserve. In 1924, the Triglav National Park became the first protected area in Slovenia. The national park covers 83,807ha, with its lowest point at 180m in the Tolmin Gorges and the highest at 2,864m on the summit of Triglav. In order to preserve the unspoilt nature, park visitors **must follow certain rules**; this, however, does not affect the park experience. The park rangers are ready to show you the park's main attractions.

The Triglav National Park is definitely a place for **mountain lovers**; breathe the fresh air, hike through the great vastness of the valleys and peaks, admire the beautiful mountain flora, and observe the wildlife in their natural habitat.

The **Triglav National Park** is the place for **hiking adventures**, spending the night in **mountain huts**. In the working mountain meadows the locals will offer you homemade cheese, sour milk and "žganci" (a local delicacy).

Have you ever seen how mighty a mountain wall is when it rises from behind a veil of mist and the golden autumn branches of the larch? This is one of the most beautiful scenes in the Triglav National Park!

The **Upper Sava Valley** is an excellent starting point for the main attractions of the park, especially the alpine valleys of **Planica** and the **Tamar Valley**, the **Valley of Mala Pišnica**, the **Krnica Valley**, the **Vrata Valley** with the mighty north wall of Triglav, and the valleys of **Radovna**, **Kot** and **Krma**. Other beautiful sights worth seeing are the **Vršič Pass** (the **Russian Road**), the **Martuljek Mountain Cirque** with its waterfalls, the river **Nadiža** and the **Peričnik waterfall**, the endless forests, and also the cultural monuments, such as the **heritage museum at the Pocar Farm** in **Zgornja Radovna** and the **Russian Chapel** on the **Vršič Pass**.

Family adventures

Children, you can meet your fairytale heroes in person!

You can meet them for the first time during the **'Kekec Days' in Kranjska Gora**. However, if you want to make friends with the characters Kekec, Rožle and Mojca, you should visit the **Land of Kekec**.

On a hike towards the villages of Dovje and Mojstrana, you can enjoy "Travelling along the trails of the Triglav fairytales", a theatre in nature.

Warning for parents: After you visit these lands, you will not have to read fairy tales for a good night's sleep!

What makes us a family-friendly valley is a broad offer of social and recreational activities, from a pleasant summer stroll on unspoilt forest paths to family sledging on the white slopes of winter.

Who is Kekec?

Kekec

Kekec is a brave boy, a fearless and kind shepherd, facing multiple daily adventures on steep mountain slopes. While his herd of sheep and cows is pasturing on mountain lawns, Kekec is strolling around and exploring extensive grassland and winding paths. Being constantly surrounded with nature, Kekec acquired all the knowledge he needs for his everyday life.

Whoever sings a happy song ...

Kranjska Gora is the birthplace of the writer Josip Vandot, who created a little shepherd boy called Kekec, who sings, eats "žganci" with sour milk and outwits the awful Bedanc... The "Bedanc Bus" will take you to the fairytale town and bring you back after two hours. You can bring your parents too, if they are well behaved.

Kekec Land

A unique family experience...

"Travelling along the trails of the Triglav fairytales" is a unique family experience for all who love the world of fairytales. A theatre group will lead you to the original places of seven Triglav fairytales and revive old customs, superstitions and habits in Mojstrana and Dovje. Your stomach will also get a fairytale treat.

The Mišmaš Bakery is looking for helpers to make bread...

The Mišmaš Bakery is a playroom for learning and includes theatre, teaching, storytelling and artistic work. In the real Mišmaš Bakery participants play the roles of mice, the helpers of Mišmaš, and with the help of some face painting are transformed into the ancient enchanted mouse society. The participants also make their own bread. When they enter the bakery, they enter a fairy-tale world, where they participate in a play.

Cycling

One of the most beautiful Slovenian **cycling paths** leads from **Rateče** through **Kranjska Gora**, past **Gozd Martuljek** to **Mojstrana**. The route is **very scenic**, since it partly leads along an abandoned railway route over many bridges, and is almost entirely isolated from motor traffic. Without demanding ascents, and with **inns** and pleasant resting places along the way, it is also suitable for children.

Do you like the adrenalin rush when riding your bike? Then the Kranjska Gora Bike Park, with its programmes for both beginners and professionals, offers everything you need.

Bicycles are great for you and for the environment!

MARCH

Ski-flying and jumping & Open Air Planica

A jewel of the Slovene athlete and aircraft and sports facility designer, the engineer **Stanko Bloudek**, the ski jump in Planica has been a venue for international ski jumping tournaments since 1934. Between 2005 and 2011, Planica was the holder of the **world record ski jump** by **Bjørn Einar Romøren**: 239m. Don't forget to support the project of sustainable development and come to Planica by train or by carpooling.

Taste the charged atmosphere for supporters as well as the culinary delights of the Valley at Planica, under the Ponce ridge. After the competition is over, join us at the Open Air Planica event in Kranjska Gora. The biggest open-air event is filled with sporting spirit, the awards for the contestants, the announcement of the competition numbers, concerts and other entertainment.

MARCH

Vitranc Cup & Q Max Party

Every year in March the **international ski event, the Vitranc Cup, takes place.** The atmosphere is incredible, the fans very loud, and the slope excellent. Hundreds of workers make sure that the slope in **Podkoren is perfect.**

After the end of the sports part of the **Vitranc Cup**, the fun is far from being over: it is followed by **musical performances, concerts and entertainment** at the "Q Max Party".

NOVEMBER

Fire Spectacle – Meeting of Krampuses ("Parkeljni") of Three Lands

You have never seen so many **Krampuses ("Parkeljni")** from all sorts of places! The popularity of the event, named the **Fire spectacle - Meeting of the Krampuses ("Parkeljni") of Three Lands, in Podkoren** is growing and is soon to become a real festival.

The mythical creatures, **Krampuses ("Parkeljni")**, are terrifying monsters that walk from house to house and scare the children. They originate from pagan times, when these evil spirits became the companions and helpers of **St. Nicholas**; in accordance with Christian values the Saint brought presents to the good children and Krampuses scared the naughty ones.

DECEMBER

New Year's Eve celebrations

What could be nicer than to spend the day enjoying the numerous sports activities on offer in **Kranjska Gora**, and in the evening to dress in warm clothes and walk through the decorated streets and markets to celebrate **New Year's Eve?**

Musical groups with their lively playing and excellent performances will escalate your expectations to the peak - counting down to the New Year. After the sound of the **champagne** and the **New Year's kisses**, you can continue partying in the warm atmosphere, dancing until the morning light.
